SUMMARY

Full Stack Developer skilled in MERN stack with hands-on experience building and deploying scalable full-stack applications including secure authentication, E-commerce workflows, and AI-integrated chat interfaces. Comfortable working across the stack, from REST API design to responsive, animated frontends. Seeking a Software Development / Full Stack Developer role to build production-grade, user-focused applications.

TECHNICAL SKILLS

Languages: C, C++, JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, GSAP, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Render, Cloudinary, Vite, Clerk

Core Concepts: Data Structures & Algorithms, API Integration, Authentication & Authorization, Version Control, Agile Collaboration, Problem Solving

PROJECTS

Vashtra — Full Stack E-Commerce Platform *GitHub:* Repository

React (Vite), Tailwind CSS, GSAP, Node.js, Express.js, MongoDB, Cloudinary *Live:* View

- Developed a full-stack e-commerce application with product catalog, cart, and order flow.
- Implemented JWT-based authentication, cart management, product filtering, and admin panel.
- Integrated Cloudinary for optimized image storage and delivery, and built a fully responsive UI with Tailwind CSS and GSAP animations.

MediLocker — Healthcare Records Management App *GitHub:* Repository

React (Vite), Tailwind CSS, GSAP, Node.js, Express.js, MongoDB, Cloudinary, Recharts *Live:* View

- Built a full-stack healthcare management application enabling users to securely store, organize, and retrieve personal medical records in one place.
- Designed a Node.js/Express and MongoDB backend to manage record storage, with Cloudinary handling file uploads.
- Built interactive dashboards with Recharts to visualize health data trends, styled with a responsive Tailwind CSS UI.

DeepSeek AI Chat Clone *GitHub:* Repository

Next.js, Tailwind CSS, MongoDB, Clerk, DeepSeek API (OpenAI-compatible) *Live:* View

- Built a full-stack AI chat application inspired by DeepSeek's interface using Next.js and MongoDB.
- Integrated the DeepSeek API (OpenAI-compatible) to handle real-time conversational AI responses.
- Implemented user authentication and session management with Clerk, and a responsive chat UI with Tailwind CSS.

EXPERIENCE

Technology Virtual Experience Program — Deloitte Australia (via Forage) *June 2025*

- Completed a simulated technology consulting project involving data analysis and requirements review, applying structured problem-solving to produce a client-style deliverable.
- Practiced professional written communication by drafting a summary report of findings and recommendations.

EDUCATION

Marwari College, Ranchi — Bachelor of Computer Applications *2023 – 2026*

CGPA: 8.5 | Ranchi, Jharkhand

K.N. +2 High School, Ichak — Intermediate (12th), 88.4% *2021 – 2023*

K.N. +2 High School, Ichak — Matriculation (10th), 92.0% *2019 – 2021*

CERTIFICATIONS & ACHIEVEMENTS

- Technology Virtual Experience Program Certificate — Deloitte Australia / Forage (June 2025)
- Eklavya TechFest Hackathon — Participant, Dr. Shyama Prasad Mukherjee University, Ranchi (June 2025)
- Solved 80+ Data Structures & Algorithms problems on LeetCode (JavaScript, C++)
- Achieved 380+ points on GeeksforGeeks for problem solving
